### PRINTS CHARMING

The myth that only women need their beauty sleep is a myth that needs busting! After a taxing day's work, followed by sojourns to sexy watering holes, men about town meander home to wind down the evening on bedding that exude masculine lines with subdued shine which would induce the deepest and most refreshing of sleep! Red blooded males favor nights of uninterrupted snoozing in order to be in prime time mode for extended play performance!

Nolen's "you own the night" appeal is a slamdunk for head honchos with a penchant for corporate luxury! The modern simplicity of Soho's clean design commands a "take notice" vibe. Meanwhile, Haze's "dream catchers" graphic prints make for even hotter canoodling! Kian's "Great Scott" Celtic theme plaid will do the talking and tricky maneuvering for you! Jordan's and Fiesta's hard to ignore and deceptively discreet "show your stripes" patterns telegraph plenty of passion and a bit of mischief!
